

GOVERNOR URGES LEGISLATURE TO BACK IRWIN SITE

Sends Message to Both Houses,
In Which He Gives Rein
to Views

'SELFISHNESS DISCLOSED, DISCOURAGING FEATURE'

Civic Center Should Be Thing
of Beauty, in Keeping With
Natural Charms

In a message read in both houses of the legislature yesterday the Governor made it plain that he favors the Irwin site for the federal building, urging it in order that the civic center of the city might thus be made complete. He urged acquiring the property on the main side of King street between the judiciary building and Punchbowl street, and also said that he is willing to assist the municipality in acquiring the "store" lot for the proposed city hall. The message, in full, is as follows:

"Governor's Message
"Territory of Hawaii, Executive
Chamber, March 1, 1915.
"To the Legislature, Territory of Hawaii.

"Gentlemen:—Were I not intensely solicitous for the development of the City of Honolulu into a beautiful city, worthy to represent and glorify the charming nature has bestowed on these islands, and to have the lawful representatives of the people of Hawaii use their power and influence in behalf of such a city, this message would never have been presented to you.

"In every ambitious city, far-sighted, unselfish, progressive citizens of character and courage are endeavoring to secure a notable civic center, each for his own city.

"The time is immediately at hand when Honolulu and the Territory should endeavor to influence the federal authorities to decide whether this city is to have a notable civic center.

"If it fails now, it can never be won back. It is a matter of life and death to the city.

"The very nature of our situation and limitations point to but one location, to wit, that area which on the main side is already occupied with appropriate public buildings, the Capitol, the Archives, the Library of Hawaii, the main side from Punchbowl to Keolu street, a part of which is already occupied by the judiciary building, and it is to be hoped will be further occupied by the federal building on the Irwin site. The corner from the judiciary grounds to the main side street should be acquired. The city hall should occupy the 'gorge' site where Merchants and King streets meet.

"The administration so far as it is within its power assured the recent board of supervisors and would, if requested, assure the present board of supervisors of its earnest cooperation in securing that site for them. It is, however, indulged in a hope no action would be taken until the site of the federal building was determined, and its style of architecture, so that the new building might be made architecturally harmonious, if it should become a part of Honolulu's civic center.

"Should Oppose Selfishness
"To me the most discouraging feature in the selfishness disclosed, and should my suggestions be acceptable to you, I trust that you may find means to counteract such selfishness.

"A prominent gentleman said to me, 'Governor, personally I favor the Irwin site as the only logical one that can both convenience the public and best beautify the city, but, professionally, I favor the site that will afford me a commission or fee.'

"I beg to quote the following cablegram:

"Washington, D. C. Feb. 27, 1915.
"Governor Pinkham, Honolulu.
"Federal Building bill now goes to President. Conference report agreed to by both houses.

"I desire not to force my opinions on you, but believe it to be my duty to transmit to you all information, including in your wisdom and public spirit for such prompt action as you may determine appropriate."

"KALANIAN'AOLE."

"Be It Further Resolved, That the Honorable Joseph K. Kahanalani'ao, Delegate to Congress from the Territory of Hawaii, be requested to personally extend this invitation to the President of the United States, vice president of the United States, members of the cabinet, and the members of the congress of the United States to visit this Territory as the guests of the Territory during the year 1915; and

"Be It Further Resolved, That the Honorable Joseph K. Kahanalani'ao, Delegate to Congress from the Territory of Hawaii, be requested to personally extend this invitation to the President of the United States, vice president of the United States, members of the cabinet, and to such members of the congress of the United States and other distinguished persons as he may desire; and

"Be It Further Resolved, That a committee, consisting of four members of the senate and four members of the house of representatives be appointed by the president of the senate and the speaker of the house, respectively, and authorized to act with the president of the senate, the speaker of the house, the governor, the secretary of the Territory, and the delegate to congress in arranging for all necessary matters in connection with the carrying out of the purposes of the resolution; and

"Be It Further Resolved, That a certified copy of this resolution be transmitted jointly by the president of the senate and the speaker of the house of representatives to the delegate to congress."

"The select committee of the first senatorial district, Hawaii, presented a report, which was adopted, being in part as follows:

"Your committee, to whom was referred the communication of James C. Turner of Hilo, complaining of an unlawful inspection fee levied against his electric installation work by the Hilo Electric Light Company, Limited,

"Charles Murasky, city building inspector, who on Sunday night ran down and injured an enlisted man and who continued on his reckless course and knocked senseless Shukuku, a Japanese, in Lihika street, was arrested on three charges of violating the traffic ordinance yesterday morning. He is charged with heedless driving, driving without lights and driving on the wrong side of the road. Murasky was released on his own recognizance and will appear in the police court this morning.

"Automobile 1768 is not a county car, but the property of the Schuman Carriage Company. Murasky had it on trial, claiming that the board of supervisors was contemplating buying him a new car.

"P. Matsuda, who ran into and killed F. Kawakami, in Nuuanu street, Sunday morning, was exonerated by a coroner's jury yesterday morning. Oliver J. Lanning and Albert Horner, who were witnesses in the accident, gave contradictory testimony showing that the driver was not at fault.

THREE NEW BILLS WORK THEIR WAY INTO THE SENATE

Extension of Brewery's Life,
Enactment of Revised Laws,
and Barring Guns

HOT HILO COMPLAINT TO INSPIRE NEW LAW

Unlawful Inspection Fee Will Be
Made Basis of Measure by
Legal Committee

Following the reading of the minutes at yesterday's session of the senate, President Chillingworth instructed the clerk to eliminate, in his reference to the introduction of bills, the old-time introductory remarks commencing with "under suspension of the rules," for bills are now introduced directly under the order of resolutions and the extra language is saved from lumbering up the journal.

Communications from the house transmitted house bills 70 and 82, the former relating to the extension of the life of the brewery and the latter providing for a site for the territorial marketing division. Senator Riech thought it was up to a "shrinker" to concern himself with the bill and therefore felt gratified when the Reverend S. L. Deha seconded his motion that the measure pass first reading by title.

A petition from deputy tax assessor was on the president's desk. The Kohala, Hawaii, deputies, prayed for compensation for commissions due them.

On motion of Wirtz the petition was ordered spread on the journal and referred to the ways and means committee.

Revised Laws Received
The president was also in receipt of a communication from the chief justice regarding the 1915 revised laws. It had been expected that the laws would be ready by the first of the year, but there had been delay in the completion of the index. A draft of an enabling act was enclosed.

Makekau asked that each senator be supplied with a copy of the laws. Three copies were all that were received, however, and, on motion by Riech, one was dedicated to the president's desk and one each went to the judiciary committee and the committee on ways and means.

The printing committee reported the printing of bills 15 and 16. The former, having to do with hotel keepers and their duties in regard to keeping and showing registers of their guests, was referred to the judiciary committee.

Senator Castle introduced a bill, S. 17, to enact the revised laws, 1915. Two bills by Makekau.

Senator Makekau introduced two bills, S. 8, B. 18 and 19. The first was to extend the license of the brewery for fifteen years. The second prohibits hunting with or discharging firearms in any city or town. Concerning the latter, President Chillingworth gently intimated that there was already such a law on the statute books and the introduction of the bill would simply be lumbering up the journal. But Makekau wanted it passed on first reading, remembering that the senate would later see whether it was a repetition or not.

The senate received and adopted the report of the committee on conference in regard to house concurrent resolution 4, inviting members of congress to visit Hawaii during 1915. The report recommended the amendment as follows:

"Be It Resolved, By the house of representatives of the eighth legislature of the Territory of Hawaii, the senate concurring, that in the name of the people of this Territory, a cordial invitation is extended to the President of the United States, vice president of the United States, members of the cabinet, and the members of the congress of the United States to visit this Territory as the guests of the Territory during the year 1915; and

"Be It Further Resolved, That the Honorable Joseph K. Kahanalani'ao, Delegate to Congress from the Territory of Hawaii, be requested to personally extend this invitation to the President of the United States, vice president of the United States, members of the cabinet, and the members of the congress of the United States to visit this Territory as the guests of the Territory during the year 1915; and

"Be It Further Resolved, That the Honorable Joseph K. Kahanalani'ao, Delegate to Congress from the Territory of Hawaii, be requested to personally extend this invitation to the President of the United States, vice president of the United States, members of the cabinet, and to such members of the congress of the United States and other distinguished persons as he may desire; and

"Be It Further Resolved, That a committee, consisting of four members of the senate and four members of the house of representatives be appointed by the president of the senate and the speaker of the house, respectively, and authorized to act with the president of the senate, the speaker of the house, the governor, the secretary of the Territory, and the delegate to congress in arranging for all necessary matters in connection with the carrying out of the purposes of the resolution; and

"Be It Further Resolved, That a certified copy of this resolution be transmitted jointly by the president of the senate and the speaker of the house of representatives to the delegate to congress."

"The select committee of the first senatorial district, Hawaii, presented a report, which was adopted, being in part as follows:

"Your committee, to whom was referred the communication of James C. Turner of Hilo, complaining of an unlawful inspection fee levied against his electric installation work by the Hilo Electric Light Company, Limited,

"Charles Murasky, city building inspector, who on Sunday night ran down and injured an enlisted man and who continued on his reckless course and knocked senseless Shukuku, a Japanese, in Lihika street, was arrested on three charges of violating the traffic ordinance yesterday morning. He is charged with heedless driving, driving without lights and driving on the wrong side of the road. Murasky was released on his own recognizance and will appear in the police court this morning.

"Automobile 1768 is not a county car, but the property of the Schuman Carriage Company. Murasky had it on trial, claiming that the board of supervisors was contemplating buying him a new car.

"P. Matsuda, who ran into and killed F. Kawakami, in Nuuanu street, Sunday morning, was exonerated by a coroner's jury yesterday morning. Oliver J. Lanning and Albert Horner, who were witnesses in the accident, gave contradictory testimony showing that the driver was not at fault.

REVENUE OFFICE RUSHED BY WORK

Income Tax Returns and Registration of Narcotics Gives
Cottrell Busy Day

Knocks Porto Rican AND PATROLMAN DOWN

Then Latter Resorts to Revolver
in Self-Defense and Hits
Prisoner Twice

Collector of Internal Revenue C. A. Cottrell and his force of office assistants were very busy persons yesterday. They began early in the morning at their desks, and eleven o'clock at night found them in rolled-up shirt sleeves and with collars thrown aside. All being caused because it was the last day for the making of individual and corporation income tax returns, if penalty for evasion was to be escaped, and also because at midnight the new law regulating acquisition and disposal of narcotics went into effect.

During the entire day the collector's office was thronged with procrastinators, who waited until the last minute and then made a rush to avoid paying stiff penalties. Right up to eleven o'clock stragglers appeared. Just before closing his office Collector Cottrell said:

"It certainly has been a busy day; in fact, one of the busiest days we have ever had. Really, I can recall only one busier day, and that was on the eve of November 1, when the proprietary tax law became operative. Naturally, we have been unable to make a complete check, but it is evident to me that delinquencies will be few. Of course, it is certain there will be some. We will receive returns from Hilo tomorrow morning, but I expect an unusually good showing when the checking is completed."

and enclosing copies of certain correspondence that complainant had had with the governor of the Territory, also copies of certain exhibits transmitted with such correspondence, begs leave to report:

"Disregarding the immaterial matter of general verbosity of the complaint, which seems to have been prepared under the influence of considerable heat, the gist of it points to the fact that the laws of the territory provide no easy simple remedy to a man of small means to maintain certain natural rights or resist unjust and intolerable discrimination under circumstances such as those alleged and complained of.

Legislation Required
"Assuming to be true the charges made by Mr. Turner, to the effect that the company has imposed and enforced a tax in the nature of an inspection fee of \$250.00 per job on his work, and upon business and ex parte evidence your committee believes this to be the fact; and assuming to be true the statement that such a demand and forced collection is imposed by any law, ordinance or regulation and unauthorized by the board of supervisors as stated by the Governor to be his findings, after inquiry, your committee is of the opinion that the matter is a proper one for legislative consideration and action.

"Assuming the copies of correspondence to be true and correct, it would seem that the Governor had in mind to do something by way of relief for Mr. Turner, if the latter were able to substantiate his charges against the company in a specific way, but, when this was apparently done, the Governor concluded, upon investigation, that he was powerless as an official to do of direct any action to that end, and referred the complaint to the county board of supervisors as an duly representative, and your committee respectfully recommends that this matter be referred to the judiciary committee, with the request that it prepare and present a bill to meet any such cases as that complained of, whether real or hypothetical."

Two house bills were up for second reading, H. R. 46 and 48. The former provides for roads in Makena, Hilo, and was sent to the public lands committee. The latter has to do with building a road in Hanalei, Kauai, from the proceeds of land sales. Also referred to the lands committee.

Oahu Members Consider Message
At one-thirty o'clock the president called to order and read a message from the Governor, which was referred to the Oahu members as a select committee.

"Coke introduced a resolution to the effect that, as soon as obtainable, copies of the revised laws be supplied to the senators. Unanimously adopted. Chillingworth remarked that he had been informed that fifty copies would be ready by three o'clock Tuesday afternoon.

Attorney A. D. Larnach has been secured by the Y. M. C. A. to give a course of ten lectures on "Business Law." Mr. Larnach will discuss the fundamental principles of contracts, commercial paper, property, sales and agency, treating these legal subjects in a practical way. These lectures will be held on Wednesday evenings and begin on March 10.

POLICE OFFICER SHOTS MAN WHO ATTACKED WOMEN

Liquor-Crazed Brute of Restricted District Runs Amuck
With Razor Yesterday

Knocks Porto Rican AND PATROLMAN DOWN

Then Latter Resorts to Revolver
in Self-Defense and Hits
Prisoner Twice

Juan Barboza, after threatening the lives of two Porto Rican women in the restricted district with a razor, after knocking senseless one Martinez and nearly beating Police Officer Kallimoku with his own club, was brought to a halt in his murderous rampage by two shots from the officer's revolver, yesterday morning at four o'clock. One shot struck the man above the left knee the other struck him above the right ankle. Barboza is in the Queen's Hospital, where his wounds are reported as being not serious.

Martinez, a Porto Rican resident of the restricted district, was awakened by the screams of two women, who cried loudly for help.

Running to their assistance, Martinez found Barboza brandishing a razor and threatening their lives. When Martinez appeared on the scene, Barboza turned on him and chased him some distance. Martinez called for help, which was answered by Officer Kallimoku.

The latter placed Barboza under arrest and as he was forcing him toward the patrol box, Barboza wrenched himself partially loose from the officer's grip and threw a bottle of gin at Martinez, knocking him senseless. Officer Kallimoku grappled with his prisoner and in the scuffle, Barboza seized the officer's club from its scabbard and struck him over the head, felling him to the ground.

Kallimoku recovered himself sufficiently to pull his revolver and fire at his assailant.

In a statement to Deputy Sheriff Asch, Kallimoku declared that when he shot Mr. Barboza he aimed low in order to intimidate the man, as he did not want to take his life. That this was the officer's purpose is evidenced by the location of the bullet wounds.

Barboza will be charged with attempted murder upon his release from the hospital.

SCHOOL BOARD HOLDS SESSION OF IMPORTANCE

Pensions For Teachers Will Not
Be Asked For at This Term
of Legislature

INDUSTRIAL INSTITUTIONS NEED CENTRAL HEAD

Directors Think They Should Be
Under Direct Control of
Local Committee

Pensions for school teachers, control of the boys' and girls' industrial schools, usage of schools for public purposes and leave of absence for teachers were among the important subjects discussed yesterday by the board of commissioners of the department of public instruction at a called meeting in the judiciary building; in addition a vast mass of routine was disposed of.

Superintendent H. W. Kinney presided, others present being Inspector of Schools George S. Raymond, and the following commissioners:

Oahu—Mrs. Theodore Richards and L. G. Blackman.
Hawaii—William H. Smith and Mrs. D. B. Bond.

Maui—D. C. Lindsay.
Commissioner Thorvald Brandt of Kauai was unable to be present. Miss Daisy Smith was secretary of the meeting.

Some Teachers Unimpaired
Discussion of the proposition to present a bill to the present legislature providing for pensions for teachers after stated periods of service brought out the fact that the teachers of Hawaii and Maui were not widely informed of the subject and asked for further information. Oahu and Kauai teachers are heartily in favor of the idea. Superintendent Kinney and the commissioners also favored the proposed bill but acceded to the wishes of the Hawaii and Maui teachers that they be further enlightened regarding the project. Accordingly, the superintendent was instructed to compile further information for distribution among teachers with the view of preparing the bill for presentation before the next legislature.

Control of Schools
Decision was made to ask legislation by the present legislature to the end of placing the control of the boys' and girls' industrial schools on Oahu with a committee appointed by the governor instead of under the control of the commissioners as at present. The reasons advanced were that the commissioners were widely scattered, that they met in session only three times a year and that more effective results would be secured by the control being given to a local committee which could meet often on short notice if occasion demanded.

While the commission was unanimously in favor of allowing the use of school houses for public meetings it was deemed unfair that buildings which had no janitors should be cluttered up with refuse of the meetings and the school children compelled to do the cleaning up when they came to their studies the following school day.

It was pointed out that the deposit of cigar stubs and tobacco juice on the floors was the antithesis of the hygienic teachings in the schools. The commissioners decided to ask legislation that public use of schools by the public for gatherings be permitted but that such users should be compelled to clean up after themselves.

Numerous applications by teachers for leave of absence before the close of the present school term brought out a lively discussion which resulted in instructions to the superintendent that no leave of absence be granted aside from exceptional cases. It was argued that granting of leaves of absence for any cause except of vital importance would establish a dangerous precedent and give an opening for charges of playing favorites.

September 13 was set as the opening date of the school term next fall and the commission adjourned to meet again next May.
